HPE SimpliVity

325
Gen10 Plus v2

Your personalised recommendation

The HPE SimpliVity 325 Gen10 Plus v2 has been recommended as the perfect match for your business's IT infrastructure needs.

So to give you an introduction to this hyperconverged, hyperflexible, hyperintelligent infrastructure, we've created a simple guide to the key benefits.

HPE SimpliVity: Simplified

HPE SimpliVity is the most efficient all-in-one HCI you can get.

With enterprise-grade data services and security built in, simple, centralised management, and predictive analytics that solve problems before they happen, downtime becomes a thing of the past.

69% cost savings vs traditional infrastructure

10:1 data efficiency guaranteed across storage and backup

90% capacity savings, guaranteed

50% lower costs per remote desktop
