

## FY21 Aruba EMEA Channel Partner Awards Ceremony *Aruba EMEA Distributor of the Year FY21*

### Aruba Instant On named CRN's 2021 Product of the Year

CRN, the leading IT channel news and analysis platform, named the Aruba Instant On AP22 access point as 2021's overall winner in the Small-Medium Business (SMB) Networking category.

[CRN's 2021 Products of the Year](#) awards honour leading partner-friendly products that have launched over the past year. The award recipients are selected by solution providers, who choose their winner based on a range of categories – including product rating, technology, revenue, profit opportunities, and customer needs.

#### Blazing fast speeds and advanced security

The Aruba Instant On [AP22](#) is a Wi-Fi 6 access point, which means it's designed to guarantee blazing-fast performance, greater capacity to handle more devices simultaneously, and next-generation security; WPA3. It's our go-to access point for small businesses with expanding mobile, cloud, and IoT requirements; ideal for environments such as offices, schools, retail stores, and hospitality settings.

It's also a part of our suite of Instant On [access points](#) and [switches](#) that have been tailor-made to boost Wi-Fi performance, lower latency, and enhance security for small businesses of varying sizes with differing technology needs.

This recent recognition is one of three won by Aruba in 2021's award program.
