

Q1 Top Value Offers

Every quarter, we may promote additional 'Top Value Offers'. This means that with the numerous TPL discounted products, we may offer an additional discount for a limited time on a small number of selected products. This ensures that you always have fresh deals to offer to your customers, giving them the discounts that make Aruba SMB Networking such great value.

This quarter, we are promoting our Aruba Instant On AP15 and AP11D.

AP15 (R2X06A) up to 25% discount

The Aruba Instant On AP15 is perfect for environments requiring high performance and bandwidth. Business-grade capabilities are designed to meet the mobile, IoT, and security needs of tech start-ups, animation and graphics firms, or other demanding environments making it ideal for small business use.

AP11D (R2X16A) up to 29% discount

The AP11D is perfect for home offices where built-in Ethernet ports save space. The smart mesh Wi-Fi support means wires are a thing of the past. The AP11D has content and device blocking controls along with a secure guest Wi-Fi with a simple set-up so you can run your business seamlessly.

Egypt and Israel should use different specific SKUs. Please contact your local Aruba representative for details.
